Having dedicated my life to animals, has taught me that they have an even more glorious purpose than anyone realizes. Every time I share a story of the dogs I have known, I encounter happy people. People who's faces are glowing, excitedly sharing the amazing stories of the dogs they have been enamored with, the dogs that danced, pranced and have been stroked across their lives. Our pets give us that glory: that each pet is singular, that to know one being is both uniquely singular and all encompassing.

Ann Marie takes you on her life's journey of growing up on a farm, discovering her gift, and uncovering the spiritual purpose of pets.

"This book is a compilation of some of the more memorable moments and clients I have had the joy of knowing, and insight into how animals think, why they do what they do, and how to have closer relationship with your fur-footed friends. In talking to pets on a daily basis, I have found that they did not come into their person's life randomly. Instead, I found - and now fully believe - that animals come with a purpose unique to each of them, and that they return to their human family time and time again."

Ann Marie explained how the Universe works, and how to be in touch with my genuine self. She gave me the courage I needed to face another day. I know now that life truly does have meaning, and is not random.

- Enthused in Colorado

Ann Marie Has really gotten to the bottom of some behavioural issues that we have had with a few of our foster dogs. I found her information to be both accurate and educational; and I look forward to speaking with her every time. Ann Marie is truly has incredible passion, conviction and a heart of gold!"

- Derek Phelps, Small Paws Rescue, Arizona

Ann Marie really can access the other side, or wherever it is that our loved ones (and not so loved ones) go when they are finished on this earth. She speaks clearly about the funny corners and pockets of life. She is highly skilled in her work, which is rather hard to define. After hearing her speak, you know beyond doubt that she has the ability and faith to actually communicate with those gone from our lives. I had no idea what she could do. After hearing Ann Marie my life was transformed for the better, my faith in God even stronger. She's a funny angel, and a compassionate spirit, here on earth with us for a little while.

- Speaker of Peace, Missouri

When you pull the "right" thread on a sweater you can easily unravel the whole thing. Once you rewind the yarn you can create whatever you want with it. When Ann Marie worked with me, she listened till she found that "thread" and gently pulled on it. Once I was told what that thread meant and how it was woven into my

life, change became easy. My life now is totally different than it was before I consulted Ann. I am excited to get up in the morning, laugh easier, and know "everything" isn't on my shoulders. I have some spaces of happiness, something I didn't have any of before I worked with Ann Marie.

- Marilyn, California

I was astonished with Ann Marie's ability to talk to horses, simply by hearing their name. She went through the barn and talked to each horse there, all with different personalities, quirks, gossip about their friends, and tidbits about what their humans said about them. It was both inspirational and informational. I felt so much closer to my horse, and my friend obtained insight into why her horse was misbehaving. She rushed home to do what Ann Marie suggested, and sure enough, her horse smoothly performed without any bad behaviour! If you have a chance to hear Ann Marie speak, make sure you go!

- Spencer, Colorado

What a great gift Ann Marie has! She speaks with passion, intelligence and joy; taking a difficult topic and making it easy to comprehend. The underlying message of the Universe loving us beyond measure, that there is a consciousness that goes on after death and that both animals and people go to heaven! I have heard her speak on several subjects, and she is well versed in all of them. The difference between Ann Marie and other spiritual lectures I have gone to? Ann Marie is down to earth, while be concise and concrete. Giving specific answers not vague suggestions. Above all, she is honest; she says what is true and accurate, not what you or audience members want to hear.
